EventCamp.ca

Welcome to EventCamp's Quick Tips Series for event and association managers.

We are here to assist our event and association managers with managing their events as efficiently as possible!

This EventCamp Quick Tip is about Payment Processing types.

1) CloverConnect
2) PayPal
3) Stripe (preferred)
4) Worldline Services
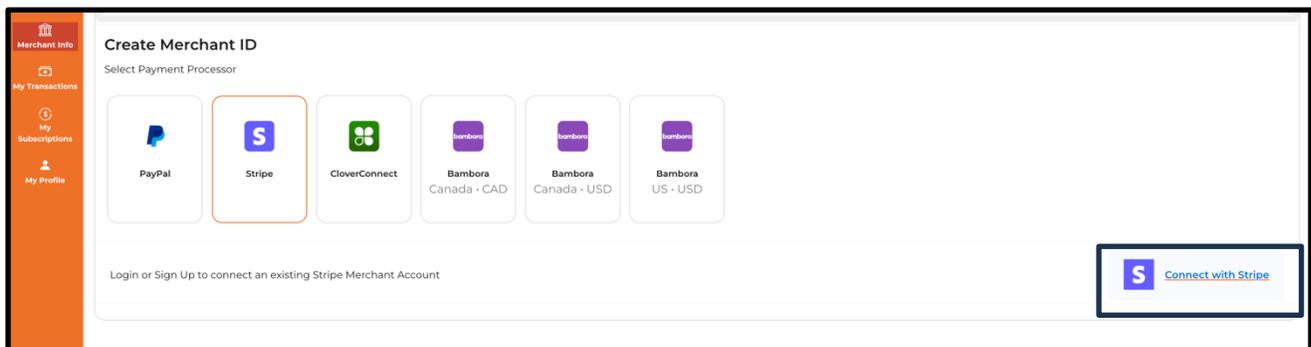

Payment Processors

Event Manager Guide – Connecting your Payment Gateway with EventCamp

How does it work?

1. A payment processor is the 'safe and secure' bridge, or 'merchant account', that connects your event and association's ticket and sponsorship sales to your bank account.
2. An EventCamp account can have multiple payment processors listed.
3. For security reasons, once a payment processor's merchant account is connected to an EventCamp account, it cannot be connected to another EventCamp account.
4. You can host multiple events using the same merchant account. (all going to the same bank account.)
5. Each event can only be connected to one merchant account at a time.

To set up a payment processor (CloverConnect, PayPal, Stripe or Worldline Services) for your EventCamp account

1. Go to the Merchant Info tile in the orange menu bar and click on your payment processor of choice. Here, if you choose Stripe, a "Connect with Stripe" box will appear on the bottom right. This will redirect you to the Stripe login page, and will ask you to login. Once you have logged in, your Stripe and EventCamp accounts will be connected!
